

OUR MONTHLY FREE INTRODUCTORY TALK

Brain Integration Treatment has successfully resolved brain and learning disorders around the world for many years.

A growing number of healthcare professionals in Northern Colorado are referring their clients to Open Pathways for treatment. Come discover for yourself why!

Open Pathways presents a free introductory talk each month about our practice, the history of Brain Integration and the details of how we help our clients and their families achieve happier, more successful lives.

You are welcome to attend...

*the 2nd Tuesday of Each Month
at 7:00 pm to 8:30 pm*

Please RSVP to 970-416-6330 or email Robert@OpenPathways.org

Each referral from health and education professionals now creates free treatment credits to youth members of the Boys & Girls Clubs of Larimer County.
